

LHBT SERIES

High Lumen Industrial High-Bay LED Luminaire Open LED Design

Fixture Type: _____

Job Information: _____

SPECIFICATIONS:

LED MODULES:

- High performance linear configured LED module boards.
- Each board consists of multiple mid-power, high efficacy LEDs in a precise layout eliminating the need for supplemental heat sinking.
- The boards produce an even and diffuse light which maximizes optical efficiency.
- Compatible with the dimming performance of the LED driver.
- Color temperatures available: 3500K, 4000K and 5000K.

LED DRIVERS:

- Factory programmable constant current LED power supply.
- Multiple standard drive current outputs (factory set by Mercury) are cataloged with their corresponding lumen package offerings. Upon request, custom drive current outputs and lumen packages are available.
- Note: Certain cataloged lumen packages may be provided with a non-programmable constant current LED power supply at Mercury's discretion. Contact factory if critical.
- Universal voltage input, 120V-277V, 50HZ-60HZ.
- Specification grade dimming down to 1% on 0-10V dimming controls.
- Optional 480V available on request.

LED LUMEN PACKAGES:

- Cataloged standard lumen packages. See attached chart for full details.
- Custom lumen packages pre-set are optional with programmable drivers only. Contact factory for details.

HOUSING:

- Fabricated from heavy gauge code grade cold rolled steel with parts securely held into place with a combination of rivets and screws.
- Vented housing for additional heat management.
- White polyester powder coating finish on all parts for long lasting durability.
- Sufficient electrical knockouts are provided on the housing back and ends.
- Wiring access plate on back for easy installations.

OPEN LED DESIGN:

- Intended use with open LED modules maximizes lumen output.
- For very high mounting heights this may be beneficial and acceptable.
- If enclosed or diffused LED modules are required or desirable, See LHBT/R or LHBT/S series.

INSTALLATIONS AND OPTIONS:

- Intended to be suspended on aircraft cable, chain or stems. Cataloged on accessory matrix.
- Optional top mounting box accepts a single stem, conduit, pipe, or add additional locking-hook to box which accepts chain.
- Optional wired-in flex, cord and plug sets, and twist-lock plug sets.

STANDBY LIGHTING OPTION:

- Self-contained module, 10W or 12W as specified. Mounts on top of housing. Battery backup upon loss of power.

OPTIONAL OCCUPANCY SENSOR:

- Self-contained sensor (Leviton #OSFHU or equal) mounts directly to luminaire.
- Passive infrared (PIF) technology for individual luminaire control.
- Reliable coverage up to 40Ft. height.
- Interchangeable lenses for 360 degree or aisle way pattern.

OPTIONAL ACCESSORY EQUIPMENT:

- 11GA. wire guard to protect LED modules. White or chrome finish.

CERTIFICATE OF SAFETY COMPLIANCE AND LISTINGS:

- Luminaire: UL and CUL listed 1598 and bears their label. Suitable for damp locations.
- DesignLights Consortium (DLC) qualified product. Not all versions of this product may be DLC qualified. Check at www.designlights.org/QPL to confirm.

WARRANTY:

- 5-year limited warranty is standard. Special 10-year warranty available on a job-to-job basis. Complete LED warranty terms available at www.mercltg.com.
- Actual performance may differ as a result of end-user environment and application.
- LED luminaire is suitable to operate in ambient temperatures form -40C (-40F) to 40C (104F).
- The following exclusions apply: Luminaires with standby lighting options, integral lighting controls options, or wireless control options. Consult factory.

FEATURES:

- High-Bay style linear ambient LED luminaire.
- Performance designed for very high lumen packages.
- Intended for the higher ceilings found in industrial locations as well as warehouses, big box retailing and gymnasiums.
- Ultra-thin thermally designed full body style housing.
- Open LED design maximizes available lumens and performance.
- Standard nominal lumen packages cataloged for a 24" length or a 46" length module.
- Other lumen packages upon request.
- Digital LED technology provides high efficacy and energy efficiency.
- No maintenance required as High Bay LED luminaires require no re-lamping efforts. Extremely important with intended mounting heights up to 35 feet.
- Lumen maintenance; Reported L70 (hours) & L80 (hours) > 60,000.
- CRI greater than 80.
- Fixture lumens per watt ratios up to 136.
- For new installations or direct replacement for older HID or fluorescent luminaires.
- American Made.
